

# PROBABILITY

HARI VENKATESWARLU - FWC22058

**16.3.18** <sup>1</sup> In class XI of a school 40% of the students study Mathematics and 39% study Biology.10% of the class study both Mathematics and Biology.If a student is selected at random from the class,find the probability that he will be studying Mathematics or Biology

**Solution:**

Percentage	Subject	Probability
40	Mathematics	$P(M)=0.4$
30	Biology	$P(B)=0.3$
10	Both	$P(MB)=0.10$

Table 2:

$$\Pr(M + B) = \Pr(M) + \Pr(B) - \Pr(MB) \quad (16.3.18.1)$$

$$\Pr(M + B) = 0.4 + 0.3 - 0.10 \quad (16.3.18.2)$$

$$\Pr(M + B) = 0.6 \quad (16.3.18.3)$$
